# What is a Seed Library?

A seed library is a community-based resource for the sharing of seeds. Similar to a regular library, gardeners "borrow" seeds from a seed library at planting time. At the end of the growing season, gardeners save the seeds from their plants if they can, and return a portion of the seeds to the library.

We've gathered factsheets and resources to help our community Seed Library patrons get started with their gardening projects.

#### **Factsheets and Resources:**

### **Planning**

Square Foot 4 X 4 veg garden (from Cornell Cooperative Extension Putnam County)

**<u>Beginning a Vegetable Garden</u>** trifold (from CCE Putnam)
